WILL CELEBRATE LODGE FOUNDING

Odd Fellows Entertain the Grand Sire, Who Tells of Sanatorium Work.

The anniversary of the founding of Odd Fellowship will be observed by the El Paso lodge of Odd Fellows, Tuesday evening in their hall on El Paso street.

Saturday evening the subordinate lodges gave a reception for W. L. Kuykendall, grand sire of the Odd Fellow lodge of the world, who was the guest of the local Odd Fellows, Saturday afternoon and evening. The reception was attended by the members of the different lodges, including the Rebekah lodge, which assisted in the reception. The grand sire was welcomed by Judge F. E. Hunter and spoke of the aims and needs of Odd Fellowship. He told of the movement for the establishment of sanatoriums in different parts of the country and the great good which would be accomplished by such institutions. To do this, Mr. Kuykendall said that there would have to be a change made in the constitution of the lodge, but that he thought that such a change could be arranged for within the next two years. When this is done, an assessment per capita would then be made to support the sanatoriums for the care of the sick members, and with the membership which the Odd Fellows' lodge has, he said that the showing which could be made would be a splendid one.

COLLEGE STUDENTS WIN THE DEBATE

Defeat El Pasoans in Oratorical Effort and at Baseball.

Agriculture College, N. M., April 25.—The debate on Saturday night between the high school of El Paso and the freshman class of the college was won by the freshman by a vote of two to one. Before the debate, there were some musical numbers and Mr. Wilcox read two short selections. Miss Foster and Miss Doris Brown played a duet for the first number, then Mr. Wilcox read "Out to Old Aunt Mary's" and "A Bit of College Verse," answering to two encores. The other numbers were three of the Chopin preludes and a longer work by Godard and the "Auld Plant Shawl" by Mrs. Wootton.

The baseball game Saturday afternoon between the college and the El Paso High school was won by a score of eight to two by the college. The game was unusually interesting one up to about the seventh inning at which time the score was three to two. This game gives the series to the college, which has won two out of the three.

Dr. Garrison, Prof. Wootton, and Mr. Anderson left about 8:30 Sunday morning for Alamogordo in Dr. Garrison's auto to look into the oil strike at that place. They expect to return by Monday night.

Bishop Kendrick preached and administered the rite of confirmation at Mesilla park on Sunday morning. There were seven in his confirmation class. Dr. McBride talked at the church at the Park on Sunday night.

The seniors are very busy finishing up their thesis work as the school term is drawing to a close and the social and athletic activities are beginning to take up more of their time. Several of this year's class are using thesis subjects that are unusual and are likely to be of great interest to people in this section of the country.

MEN SITTING UPRIGHT IN Cylinder of Locomotive.

The American Locomotive company is turning out of its shops the most powerful locomotives in the world, in its monster Mallet articulated compound engines, capable of developing a maximum horse power of 3750, sufficient to generate electricity for lighting purposes for a small sized city and powerful enough to haul a train of 100 loaded freight cars of 50 tons capacity each. The firebox, incidentally, is the size of an average living room in a metropolitan flat.

The Mallet type engine was developed by the American company. In 1904 one was built for the Baltimore & Ohio railroad, which subsequently attracted attention at the St. Louis Exposition. It created interest because of its "freshish" construction and there and then was predicted a failure. However, its performance have substantiated the claims of the builders.

The G. H. is now trying out its first big Mallets on the division east of El Paso.

HISTORICAL CASE IN APPEALS COURT

Juarez Merchant Awaits Decision as to Ownership of San Antonio Property.

Jose Maria Flores, of Juarez, is waiting a court decision regarding his ownership of 23 acres of land in the city of San Antonio, Tex. The case is in the appellate court at that city.

Based on a document more than 150 years of age, the case is of especial historical interest. The Flores family were prominent at San Antonio long before the Mexican war, being heavy land holders in that district. Fleeing into Mexico at the first outbreak, ancestors of Mr. Flores, a Juarez merchant, as well as his son, the city treasurer at Juarez, left behind all record of their rights.

An ancient document on which the claim is based, is the only surviving testimony of the Flores's possessions. Contesting against the Mexican claim is J. C. Howell, of San Antonio. The land is located at San Pedro park, one of the most beautiful sections within the city limits. Its value is considered to exceed \$250,000.

FEDERAL JURY COMMISSIONER RELEASED FROM STATE JURY

Judge Harpe was called upon to decide a rather difficult question relative to excusing jurors in the 34th district court Monday morning. Horace E. Stevens pleaded that he should be excused on the ground that he was a jury commissioner in the federal court and had held that position for two years. The court, however, stated, that according to the Texas statutes a man could not serve as jury commissioner for more than one year and there seemed to be a conflict between the state and federal laws. Finally the judge looked up the law and excused Mr. Stevens.
